

**PERMADUR Plate Handling Systems provides SAFE and EFFICIENT Material Handling**

The System pictured is a **PERMADUR Series 510 Plate Handling System** with 10ea. FP-4000 Lifting Magnets on a 14' load beam. The four outside Magnet rows can be adjusted along the length of the load beam. The Controller pictured provides Selectivity by Row, 5ea. The Controller also offers **PERMADUR's Exclusive Safety Indicator Lighting System** that confirms that the Magnets have attached to the load in preparation for a safe lift. In addition to ON/OFF Pendant Controls the Controller includes Radio Remote ON/OFF System Controls. This System attaches to a Single Hook Hoist via a 4 Part Sling Assembly. The power supply for this System is 460 VAC. **PERMADUR Lifting Magnets are Electrically Controlled Permanent Magnets that will not drop a suspended load due to loss of electrical power or misoperation of the Controls. No Back Up Battery System is required.**
